

Penny Wars Explanation

Penny Wars is a competition in which the students try to raise money for a charitable cause. To make it competitive and raise more money, the class with the most “points” will get half the money from the jug with the most money. The students want to earn points in their jug, but have money in the jugs of the other classes.

Example

1 penny = 1 point
1 nickel = - 5 points
1 dime = - 10 points
1 quarter = - 25 points
1 dollar = - 100 points
(And so on)

So, if the

Freshmen- 1,000 points
Sophomores- 900 points
Juniors- 800 points
Seniors – 700 points

It means the seniors have the most money, but the least number of points. All the money from the sophomore, junior, and senior jugs goes to the charity in addition to half the money from the freshmen jug. The freshmen win because they have the most points and get half the money in the senior class jug.

Remember – you want points in “your” jug.

Penny Wars is a competition in which each class tries to raise the most “points” by putting pennies in their class jug.

Each class then puts other types of change or money in the other classes’ money jugs. Pennies are a point- anything else takes away points.

The class with the most “points” will get half the money from the jug with the most money- no matter which class it belongs to.

The rest of the money will be donated

PENNY WARS

- A good way to raise money for the state charity or another charitable cause.
- Bring the money to TD Bank. You can put the money in the “Penny Arcade” and save yourself the time counting the change. Just make sure you put each class in the machine separately. The money printout will tell you how many of each coin you put in for the points. Bring paper to copy this information- you can’t keep the print out. There is a small fee for using the “Penny Arcade” if you do not have an account at the bank.
- Look at the printouts and see who “Won”. Don’t forget it is points, not money that determines the winner.

**PENNIES ARE THE ONLY
POSITIVE POINTS!!!!**
